+91-8210057738 | shubhamkeshri2020@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

Frontend Developer with 3+ years of experience building scalable, responsive, and high-performance web applications using **React.js, Next.js, JavaScript (ES6+), and TypeScript**. Experienced in REST API integration, performance optimization, debugging, and modern frontend development, with hands-on experience building **full-stack applications** using **Node.js, Express.js, PostgreSQL, and Prisma ORM**.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, JSX

State Management & API: Redux Toolkit, Context API, React Query, Axios, RESTful API Integration

UI/UX & Styling: Tailwind CSS, SCSS (Sass), React Bootstrap, Flexbox, CSS Grid, Responsive & Mobile-First Design

Backend & Databases: Node.js, Express.js, PostgreSQL, Prisma ORM, JWT Authentication, REST APIs

Development Tools & Workflow: Postman, VS Code, Git, GitHub, GitHub Actions, CI/CD

AI & Developer Productivity Tools: ChatGPT, Claude, Google AI Studio, Amazon Q

Testing & Debugging: Chrome DevTools, QA Testing, Bug Fixing, PropTypes Validation

Core Concepts: Performance Optimization, Clean Code, Component-Based Architecture, Error Handling, Data Validation, Software Development Life Cycle (SDLC).

EXPERIENCE

Dil Se Trader Pvt Ltd (LearnKaro Educational Technologies) — *Frontend Developer, Sept 2025 – Present* | Saharanpur

- **Owned** frontend development across multiple projects, from requirement analysis and implementation to API integration, testing, and feature delivery.
 - Developed and maintained scalable trading and analytics applications using **React.js, Next.js, TypeScript, JavaScript (ES6+), and Tailwind CSS**, delivering responsive and user-centric interfaces.
 - Built data-driven **dashboards** and analytics interfaces using **Next.js**, featuring interactive charts, performance insights, and trade-level visualizations.
 - Improved application performance by **40%** through optimized API calls, reduced unnecessary re-renders, memoization, pagination, code splitting, and efficient state management.
 - Developed reusable, modular UI components and integrated **RESTful APIs using Axios**, improving maintainability, scalability, and application stability.
 - Managed **Git/GitHub workflows, CI/CD pipelines, frontend deployments, debugging, and production issue resolution** to ensure reliable application delivery.
-

LearningMate Solutions Pvt Ltd — *Associate Content Technologist, Jan 2023 – July 2025* | Mumbai, India

- Developed and maintained scalable web applications and LMS platforms using **React.js, JavaScript (ES6+), HTML5, CSS3, and modular frontend architecture**.
- Improved development efficiency by **25%** through reusable component-based development using **React.js and Redux**, reducing duplication and accelerating feature implementation.
- Optimized application performance by improving **API calls, caching strategies, and rendering logic**, achieving up to **40% faster load times**.

- Built responsive and accessible user interfaces using **React Bootstrap and SCSS**, ensuring consistent experiences across desktop, tablet, and mobile devices.
 - Integrated **RESTful APIs** and collaborated with cross-functional teams to deliver reliable, production-ready features.
 - Managed **CI/CD pipelines using GitHub Actions**, participated in code reviews, and streamlined deployment workflows to improve development and release efficiency.
-

EDUCATION

Masters of Computer Applications (MCA) | Lovely Professional University, Jalandhar, India | 2021 – 2023 | GPA: 8.13

PROJECTS

[Klue Drinks – Brand Website & E-Commerce UI](#)

- Developed and maintained the frontend of a health-focused beverage platform using **React.js, JavaScript (ES6+), and Tailwind CSS**.
- Built reusable, modular UI components with a **mobile-first architecture**, improving scalability, maintainability, and cross-device user experience.
- Improved application performance by **20–30%** through rendering optimization, reduced unnecessary re-renders, and improved component structure.
- Implemented interactive product showcases, smooth navigation, and conversion-focused UI features to enhance user engagement and overall user experience.

INTERVIEW DASHBOARD

- Developed a full-stack **Interview Tracker application** using **React.js, Node.js, Express.js, and MongoDB** to streamline interview and job application management.
- Implemented secure **JWT-based authentication and authorization** to protect APIs and provide user-specific data access.
- Designed RESTful APIs with **CRUD operations, filtering, and sorting**, enabling efficient data management and application workflows.
- Built a responsive frontend using reusable components, modular architecture, and efficient state management practices.
- Applied clean architecture, REST API best practices, error handling, and software engineering principles throughout the development lifecycle.

FINANCE TRACKER APP

- Developed a full-stack personal finance application using **React.js, Tailwind CSS, React Router, Node.js, Express.js, and MongoDB**.
- Built income and expense tracking features with **category-based insights and real-time transaction monitoring**.
- Implemented secure authentication using **JWT and bcrypt**, protecting user-specific financial data and API endpoints.
- Developed reusable UI components and optimized API communication to create a responsive, scalable, and maintainable application.
